The Highland Center serves citizens of Highland County by providing and developing cultural, economic, and educational opportunities for residents. The Highland Center

offers business counseling services and hosts business and economic development workshops. Please call for more information.

Business Counseling: Professional business counselors through SCORE and the Small Business Development Center are available at The Highland Center each month. Counseling is free and confidential. Clients learn to write a business plan, expand their marketing efforts and handle financial accounting. The Highland Center staff is also available for technical assistance to businesses.

Business Resource Center: The Center has office equipment available for public use and maintains a collection of books, videos and software focused on business planning and community development.

Tenants: Availability of quality, low-cost space is often a barrier to startup businesses and non-profits, especially in rural areas where rental space is limited. The Highland Center is equipped with high-speed internet and has shared office equipment available to tenants, including a copier, laminator, color printer, fax machine and more. The Center also has a fully inspected commercial kitchen and walk-in freezer for bakers, caterers and other food-based businesses. Visit our Tenants Page to learn more.
