Remembering When: A Fire and Fall Prevention Program for Older Adults, was developed by the National Fire Protection Association (NFPA)'s Center for High-Risk Outreach and the Centers for Disease Control and Prevention (CDC) to help older adults live safely at home for as long as possible.

Remembering When is a complete, step-by-step program that teaches life-saving lessons to this high-risk group. It includes lesson plans, brochures, fact sheets, game cards, and more! Remembering When is centered around 16 key safety messages; eight fire prevention and eight fall prevention. Brochures are available by calling the customer sales toll free number.

Visit the web site for fire prevention information and fall prevention information.
