Botetourt County Health Department, part of the Alleghany Health District, offers Community Outreach Services such as:

- Car Safety Seat Program
- Long Term Care Pre-admission Screening
- Substance Use (prevention and treatment)

The health department also offers Community Health Improvement which focuses on the health of the entire population served by the Roanoke City and Alleghany Health Districts and aims to reduce health inequities among specific groups. The program conducts Community Health Assessments (CHAs) to identify health needs and the various social and economic factors that impact health. Based on CHA findings, the program develops action-oriented Community Health Improvement Plans (CHIPs) to support the jurisdictions in becoming healthier places to live.

Please visit the [website](#) for a detailed description of these services or call the health department if you have any questions.
