The Benjamin B. Green-Field Library and Resource Center's is the nation's largest library and resource center devoted to increasing knowledge about Alzheimer's disease and related dementias. It's mission is to help increase knowledge of the medical, clinical and social aspects of Alzheimer's disease and related disorders. The Center is a source of accurate information for those involved in patient care, policy development, research or those who simply want to know more about the disease.

The materials available related to Alzheimer's disease and related disorders are collected in a variety of formats including books, videocassette, audiocassette, CD-ROM, brochures, fact sheets, reports, slides and memorabilia. Equipment is available to utilize all formats. Information requests may be made by Live Chat, telephone, fax, mail or email. Contacts for the library are:
