The Albemarle/Charlottesville Health Department offers environmental health services. Staff members assess, monitor, and educate about environmental factors that can potentially affect one's health, such as sewage and water safety and food

safety. Staff also monitor animal bite reports as part of the rabies prevention program and provide information on other environmental issues like radon, lead, and asbestos. Please visit the [website](#) to learn more about these programs.

Service Area(s)

Albemarle County

,

Charlottesville City
