Chesapeake Care Clinic can provide free health care to families without health insurance earning below 300% of the federal poverty income guideline.

Current services include medical and dental care, medications, lab and diagnostic testing, case management, diabetic clinic, health education, follow-up, preventive care, and support groups for Chesapeake residents and dental services for uninsured, low-income individuals residing throughout Hampton Roads.

They rely heavily on the generosity of on-site licensed volunteers, medical assistants, and clerical volunteers supported by a skeleton staff. Over 100 volunteer physicians in the community offer specialty care and consultations on a referral basis. Partnerships with area hospitals, diagnostic centers, community agencies, and donors are critical to the ability to serve patients each day.
