Technical/Vocational Training/Professional Education provides programs designed to train technicians, craftsmen, and semi-professional workers for employment in industry, business, and government.

Tailors curricula to meet the regional need for workers. Professional counselors are available to assist you in the educational career and life planning processes. They can help you to make effective decisions. Counselors are also available to help students overcome problems that they may confront during their attendance at the College. Interviews with counselors are confidential.

The Workforce Development staff will assess your organizational training needs and propose specific programs that will help your employees meet their goals to improve quality, customer service and workplace skills. If you need specialized training designed for your unique operation, we can also provide curriculum development and instruction.
