PathForward has a primary goal of assisting homeless individuals to achieve stable income and housing. Funded primarily by HUD, the program provides street outreach, case management, and employment services including job training and placement. Partial funding is provided by United Way, the Arlington Health Foundation, and the Meyer Foundation.

Programs are designed to assist clients in addressing their personal barriers to self-sufficiency with the support of staff and volunteers. Food, counseling, clothing, hygiene items, showers, washer & dryer, free local phone call, voice mail answering service, assistance obtaining personal identification, mail drop, and other services are available to homeless individuals during walk-in hours.

American Sign Language with advance notice.
