Nannie Home Health Care offers licensed nurses to assess and monitor the patient's health-care needs, educate patients and caregivers and collaborate with the attending physicians to promote continuity of care. Some examples of nursing care provided in the home:

- Medication management
- Wound care
- Post surgical care
- Bowel and bladder management
- Understanding a new disease process or diagnosis
- Urinary catheter insertion/maintenance
- Injections
- Infusion therapy
- Potential feedings and care

Also available in your home are physical therapy, occupational therapy and speech therapy services.
