Bedford Memorial Hospital offers community and health screenings to help prevent and early detect common diseases and health problems. Screenings include:

- Community screenings that help raise awareness about common disease and in some situations, identify disease in its early stages.
- Health screening available in various locations throughout the community at no, or a small cost. Screenings include blood pressure and blood sugar, cholesterol, prostate cancer and stroke.

To view the event calendar and the most recent announcements about classes and screenings, [visit the website](#).

If you would like to have a free screening at your business or church, contact Christy Lucy, community health services adviser, at 540-587-3308 (office) or 540-355-2795 (mobile).
