Bon Secours Health Center at Harbour View offers radiology and diagnostic services. Two X-ray rooms, radiographic and fluoroscopic, are designed to perform traditional X-ray procedures such as chest radiography and bone studies as well as diagnostic studies such as upper and lower gastrointestinal procedures and kidney exams. The digital radiography and fluoroscopy capacities provide higher quality images and easier patient positioning. This eliminates the hassle of multiple exams.

To schedule appointments for CT, MRI, Ultrasound, Vascular Ultrasound, Mammography, Bone Density, and X-ray, please call Central Scheduling at 757-398-2316
