Edwards Adult Day Center wants to enhance the lives of seniors, adults with disabilities, and their caregivers through adult day services, activities, education, and support. The program provides daytime assistance, supervision, and support for adults who are functionally limited due to accidents, illness, or birth defects. The staff gives help and support to caregivers needing help with their caregiving responsibilities. Participants receive companionship in a safe environment and caregivers benefit as they can continue to work, attend to other responsibilities, or have some personal time. Capacity is 70.

A discounted fee is available to an individual eligible for enrollment but financially needy, based on a sliding scale.

Participants with dementia/ Alzheimer's are also welcome. Medicaid approves some participants.

Services include transportation, recreational and education activities, social events, exercise, crafts, nutritional noon meals and snacks, administration of prescription drugs and medications, intergenerational activities, and assistance with activities of daily living (ADL) (feeding, ambulation, and toileting). Individuals with a diagnosis of dementia, or incontinence may be eligible.
