J. T. Fisher Funeral Services provides the latest innovations in funeral service to the community using electronic bill paying and Internet death notices. Plans include offering webcam visitation. The funeral establishment provides families with life celebration experiences. Custom-designed caskets, outer burial containers, and urns reflect the lifestyles, hobbies, and special interests of the deceased. Personalized service programs and keepsake video/audio biographic presentations are also used to celebrate the life of the deceased. Professional, high-quality services are provided in a respectful and dignified manner.

Pre-Need Funeral Planning. Today it is becoming more and more common for people to plan funerals before death occurs. This planning may involve your funeral or the funeral of a family member or friend. In either case, J.T. Fisher Funeral Services is prepared to talk with you about the wisdom of pre-planning. Pre-arrangement involves the selection of funeral-related products and services.

Cremation. Call to discuss the options and choices for cremation. Cremation offers more memorialization than burial does. Learn more about how cremation traditions and options have changed.
