Bridging the Gaps (BTG) is an integrative residential addiction treatment facility located in historic Winchester, Virginia, providing treatment for adults suffering from the disease of addiction. We provide a phase based treatment structure consisting of 3 core phases with the opportunity for an extended 4th phase to better facilitate a client's transition back into the demands of day to day life.

At BTG we provide treatment for substance use disorders by integrating traditional modalities of psycho-social-spiritual treatment with complementary approaches oriented towards physiological healing and well being. Using the most progressive modalities available, coupled with a traditional "12 step" program, we help our clients recover their physical health as well as provide them with the psychological and spiritual tools they need for a life free from drug addiction and alcoholism. We offer integrative treatment modalities including education, individual and group counseling, intravenous therapy, oral nutrients, nutrition, acupuncture detoxification, fitness, massage, neurofeedback, meditation, yoga and Reiki. We combine treatment approaches that incorporate healing of the whole person-mind, body and spirit.

Treatment capacity is 24 at a time.
