Technology devices available to remove barriers for those with disabilities. This program provides evaluations, assessments, and training for people who use assistive technology in order to be independent. Assistive Technology devices available are: Augmentative Communication devices, computer software for accessibility, educational software and other miscellaneous devices. Consultation

and training include device setup and troubleshooting, funding resources information, vendor information, and referral and workshops.

The UCP website contains many resources related to sports and leisure and exercise. Online documents provide valuable information for persons with Cerebral Palsy and neuromuscular disorders.
