Telamon Corporation offers free weatherization services for those who may qualify as low-income, whether they're homeowners or renters. Program helps to lower fuel bills and to keep the home warmer in the winter and cooler in the summer.

 The Weatherization Program provides funds for the installation of materials and/or provision of services to a home that will increase energy efficiency, reduce energy bills, and help ensure the health and safety of the occupants.
 Weatherization program work is prioritized according to work activities that result in the highest ratio of savings to investment. To meet the eligibility criteria, applicants' income must be at or below 60 percent of the area's median income.

Priority is given to the elderly, individuals with disabilities and families with children. The Weatherization program is sponsored by the <u>Virginia Department of Housing</u> and Community Development.
