Fee Structure

No Fee

Languages Spoken

English

The Weatherization Assistance Program provides funds to reduce the heating and cooling costs for low-income families, and to ensure their health and safety. Services are available for low-income households, particularly for the elderly, individuals with disabilities, and families with children. The program provides direct installation of energy-saving measures such as sealing air-leaks with insulation, caulking, and weather-stripping; attic and wall insulation, repairing leaky duct systems; repairing and/or replacing inefficient or unsafe heating systems; and installing carbon monoxide and smoke detectors.
