Mental Health and Substance Abuse Residential Services provides permanent or transitional living arrangements, support, supervision and training for persons with severe mental illness and/or co-occurring substance use disorders in a home-like environment that promotes personal growth, respect, recovery, and hope.

The philosophy of the Residential Program is that all persons deserve the opportunity to achieve the greatest personal and financial independence and quality of life possible. Through meaningful relationships and activities, individuals can take charge of and succeed in their recovery. The program empowers individuals to live independently through improving their daily living skills, which is essential for the individuals' sense of worth and control over their own life.

For more information, call 703-746-3456 and ask to speak with a member of the Residential Screening Committee.
