Substance Abuse Case Management is designed to assist individuals and their family members in accessing services that are responsive to the person's individual needs.

Case Managers will: identify and reach out to potential individuals receiving services; assess needs and plan services; link the individual to services and supports; assist the person directly in locating, developing, or obtaining needed services and resources; coordinate services with other providers; enhance community integration; make collateral contacts; monitor service delivery; and advocate for people in response to their changing needs. Services include:

- Comprehensive assessment of case management needs;

- Development of, in conjunction with the individual, an Individual Service Plan (ISP);
- Individualized education including life skills related to independent living;
- Linkage to the Department of Rehabilitative Services (DRS) for employment counseling and job placement;
- Use of community resources, especially recovery support group;
- Referrals for food;
- Transportation services to support the plan of care;
- Monitoring of abstinence through drug screening;
- Linkage to mental health benefits;
- Assistance with applying for benefits;
- Monitoring quality of service delivery and client satisfaction;
- Advocacy.

Four tailored services fall under the Substance Abuse Case Management Program umbrella:

- Detoxification Services;
- Residential Services;
- Supportive Housing Services;
- Women's Services.
