The Rita J. Gliniecki Recovery Center provides short-term (three to 15 day) stabilization for individuals who have symptoms of behavioral health disorders that could, if not addressed, result in a need for hospitalization. This service also offers medically supervised detoxification from alcohol and other drugs. Those needing both detoxification and support for symptoms of behavioral health issues are served. Services are provided in a recovery-oriented environment and include skills training, psychiatric care, 12-step recovery groups on-site and discharge planning to assure continuity of care in transitioning to outpatient services.
