Cornerstone is a six bed residential crisis stabilization unit that offers short term, sub acute services for adult consumers, or "guests". The mission of the program is to provide creative, recovery based crisis stabilization services in a warm and inviting, least restrictive environment that instills education, self-awareness, hope and self-determination as building blocks for change. Guests of the program enter on a voluntary basis and can stay up to a maximum of fifteen days. Services are designed for guests with a primary mental health diagnosis, or a co-occurring

substance abuse or mental retardation diagnosis. Another function of Cornerstone is to provide a 'step down' feature to reduce the hospital readmission rate by providing a transitional community treatment option to expedite facility discharges.

Cornerstone provides guests with the following services:

- Private room and board, all meals, and basic hygiene items provided;
- 24 hour staffing for seven days per week;
- Psychiatric services;
- Nursing services;
- Daily medication and pharmacological services;
- Individual and group counseling and recovery sessions;
- Intensive case management to assess needs;
- Integrated treatment model for dual diagnosis of psychosis and addiction;
- Treatment coordination and discharge planning.

In addition to the Mount Rogers Community Services Board service areas, Cornerstone

also accepts referrals from Highlands Community Services.
