Total Life Counseling Day Treatment program provides a therapeutic environment for individuals who have acute or chronic mental or emotional disturbances, who do not require full-time hospital care but who can benefit from a structured environment for some portion of the day or week. Services may include individual, group and/or family therapy; social and recreational activities; and a range of adjunct therapies.

The program generally lasts two weeks, five days of treatment each week, 9:00am - 3:00pm Monday-Friday. The actual length of stay will be based on the patient's individual needs and circumstances. Enrollment in the program is on a week-to-week basis and daily attendance is required, unless prior arrangements have been made.
