Dominion Day Treatment offers mental health support services to adults. Services are designed to meet the needs of clients experiencing difficulties in their lives due to emotional, behavioral, and mental health issues. Transitional support and stabilization services are also provided to clients returning to the community from a more restrictive environment. The goal is to provide each client with individualized services and training so they can function as independently as possible. Each client will learn to utilize appropriate community resources to maintain stability in the least restrictive community setting. In-home assistance is also provided in personal daily living skills such as home maintenance and management, shopping, budgeting, medication management and parenting.
