Encompass Health Rehabilitation Hospital of Northern Virginia is a 60-bed inpatient rehabilitation hospital that offers comprehensive inpatient rehabilitative treatments for patients who want to regain the independence and confidence to return home and get back to their normal activities after a disabling illness or injury.

The hospital provides a wide range of physical rehabilitation services, a vast network of private practice physicians and Encompass Health therapists and nurses, and innovative equipment and rehabilitation technology, ensuring that all patients have access to the highest quality care. Private rooms contain amenities like televisions, telephones and wireless internet capabilities.

In addition to caring for general rehabilitation diagnoses such as orthopedics, cardiac, and neurologic conditions such as Parkinson's disease and ALS.

Encompass Health Rehabilitation Hospital of Northern Virginia has specialized inpatient programs for stroke, hip fractures, brain injuries and amputations.
