VelocityCare provides walk in medical services for non life-threatening illnesses and injuries. Besides being able to treat most common medical issues, VelocityCare has laboratory and imaging services available on location to better serve patients in one location.

Physicians can treat allergic reactions; back injuries; bee stings; upper respiratory illnesses; colds; ear aches; eye infections; minor burns; minor cuts and wounds; rashes; sports-related injuries; sprains and more.

Routine and seasonal vaccinations are available.

VelocityCare is bridging the gap between primary care and the emergency room in your community.
