At Cumberland Community Services Board, the Cottage Day Treatment program is a collaborative community effort designed to meet the mental health needs of children between the ages of seven and fourteen who are exhibiting problematic behaviors. Through this structured program, a child or adolescent is provided academic assistance and a wide variety of services offered through individual, family, and group interventions specific to their specific needs. The professional treatment team includes a consulting child psychiatrist, licensed clinical therapists, case managers, academic professionals and related community partners. The

program is located on the campus of Lebanon Middle School.
