Manage Emergency Alert and Notification Systems - In conjunction with the Office of Public Affairs, Office of Emergency Management (OEM) notifies emergency responders, county employees, private partners and residents in the event of an emergency that may affect public safety. Registration for the Community Emergency Alert Network (CEAN) allows residents to choose what type of alerts they would like to receive (weather, traffic and/or emergency alerts) and how they would like to receive them (email, text or voicemail) making CEAN an accessible alerting

system for the whole community.
