Sheltering Arms offers comprehensive management and treatment of concussion from pre-injury evaluations all the way through treatment and complete rehabilitation. Trained specialists and innovative concussion therapy technologies will lead patients down the road to recovery.

Sheltering Arms multi-disciplinary concussion treatment processes include:

- Vestibular Concussion Treatment – Physical therapists use their orthopedic and neuro vestibular expertise to address any musculoskeletal injuries or issues with balance, dizziness, and headaches.
- ImPACT Testing – Medical psychologists help provide recommendations for returning to school or work through ImPACT testing. They also help build a plan to manage anxiety and stress when dealing with post-concussion syndrome.
- Speech Evaluation and Treatment – Speech-language pathologists address difficulty with attention, memory, concentration, and organization.
- Medication Management – Physicians evaluate patients first hand, providing a thorough evaluation and medical insight. Any sleep disruption, chronic

headaches, and musculoskeletal injuries will be managed when appropriate.
