SAGE Test for Alzheimer's and Dementia

Alzheimer's and Dementia

If you are concerned that you or a family member may be showing signs of Alzheimer's Disease or related dementia, find out about the SAGE Test from Ohio State University Wexner Medical Center.

SAGE Test

The Self-Administered Gerocognitive Exam (SAGE) is designed to detect early signs of cognitive, memory or thinking impairments. It evaluates your thinking abilities and helps physicians to know how well your brain is working.

To learn more about the SAGE Test [go to the Ohio State University SAGE website](#) - you will learn:

- How to take the SAGE Test
- Why it might be important to take the SAGE Test
- What to do after you take the test
- How to download the SAGE Test
