English

Better2gether RVA's mission is to address the fragmentation of support and unequal access to care that families of children with medical complexity face. Caring for an ill child can be devastating. But with the right tools and resources, families will find a community of people and programming to support them along their journey.

Better2gether understands, supports, and equips families of children with medical complexities with the tools to care for their child. Resource Coordination is the link to providing a whole health approach to care.
